AI DEVELOPER @ RAJKOT

Evolution Infosystem is one of the premier IT solution companies in India. We are one of the fastest growing IT companies around. As a rapidly growing company, we invite smart, creative, and professional individuals who can be a part of our success.

Job Title: AI Developer
Location: Rajkot
Department: Developer
Reports to: Project Manager
Job Type: Full-time

JOB OVERVIEW:-

We are looking for a skilled AI Developer to design, develop, and optimize AI/ML models for real-world applications. The role involves working with machine learning, deep learning, NLP, and computer vision to create innovative AI-driven solutions.

QUALIFICATIONS & SKILLS:-

- Bachelor's or Master's degree in Computer Science, AI, Data Science, or a related field.
- Strong programming skills in Python (preferred), R, or Java.
- Hands-on experience with ML/DL frameworks such as TensorFlow, PyTorch, Keras, or OpenCV.
- Knowledge of NLP, computer vision, and reinforcement learning is a plus.
- Experience working with large datasets, cloud platforms (AWS, GCP, Azure), and MLOps tools is advantageous.
- Familiarity with databases, APIs, and backend integration for AI models.
- Experience in B2B branding and employer branding is a plus.

RESPONSIBILITIES AND DUTIES:-

1. Develop, train, and optimize machine learning and deep learning models.
2. Design and implement AI-powered solutions for real-world applications.
3. Work with NLP, computer vision, predictive analytics, and recommendation systems.
4. Fine-tune and deploy AI models using frameworks such as TensorFlow, PyTorch, or Scikit-learn.
5. Process and analyze large datasets to extract meaningful insights.
6. Optimize AI models for performance, accuracy, and scalability.
7. Collaborate with software engineers and data scientists to integrate AI models into production systems.
8. Stay updated with the latest advancements in AI and machine learning.

PREFERRED SKILLS :-

1. Experience in AI model deployment using Docker, Kubernetes, or FastAPI.
2. Understanding of LLMs (Large Language Models), transformers, and generative AI.
3. Hands-on experience with AI-based chatbots, recommendation engines, or fraud detection systems.
4. Strong problem-solving skills and attention to detail.
5. Excellent communication and teamwork abilities.
6. Ability to work in a fast-paced, deadline-driven environment.
7. Proactive attitude and willingness to learn new technologies.

BENEFITS:-

1. Competitive salary.
2. Opportunities for career advancement.
3. Good work environment.
4. Ongoing training and development.

Working Days: 06 Days (Alternate Saturday's Off)
Working Hours: 10:00 AM to 7:30 PM (Flexible Timing)
Salary: No bar for the right candidate

REQUIRED DOCUMENTS:-

- KYC Documents / Signed Blank Cheque
- Last Company Experience Letter.
- Last Company Salary Slip.
- Last Company Offer Letter.
